DETAILED ACTION

Allowable Subject Matter

1. Claims 1-32 are allowed.
2. The following is an examiner's statement of reasons for allowance:

With regard to claims 1, 13, 17 and 29, the prior art does not teach in combination with all other limitations recited in the respective claims means for optically Fourier transforming a moiré deflectogram produced by two moiré gratings as set forth in the claims. In conformance with applicant's disclosure, examiner interprets the term "two moiré gratings" to mean two diffraction gratings separated by a distance to produce a moiré deflectogram, or pattern (see page 7, lines 6-7, page 8, lines 9-10). U.S. Patent No. 4,972,075 to Hamada et al. teach two diffraction gratings separated by a distance to produce a moiré pattern, but do not teach means for Fourier transforming the resulting moiré pattern.

Claims 2-12, 14-16, 18-28 and 30-32 include all limitations set forth in claims 1, 13, 17 and 29, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
